Research Seminar Program Semester 2 2008

Department of Accounting
and Finance

Department of Accounting and Finance

Research Seminar Program

The Department of Accounting and Finance Research Seminar Program provides a forum for communication of innovations, research and developments in accounting, auditing, banking and finance.

Providing exposure to a wide range of topics, the Research Seminar Program encompasses pure, as well as applied research. The seminars offer an opportunity to share knowledge with Monash University staff and other industry stakeholders from business, government and accounting organisations.

The Department of Accounting and Finance welcome and encourage academics, students and professional practitioners to attend.

Subject to author(s) permission, papers can be downloaded a few days prior to the presentation from the following link:
