Accreditation activities in the Faculty of Business and Economics

EQUIS

As many of you may recall, in 2006 Monash was the first Business/Commerce faculty in Victoria to receive accreditation by the European Quality Improvement System (EQUIS). The faculty will submit its application for re-accreditation later this year, with plans for a visit by the delegates from EQUIS during 16-18 November 2010.

EQUIS ranks as one of the most prestigious global quality assurance organisations and awards accreditation to select business schools.

The achievement of EQUIS accreditation signifies that Monash has attained high quality international standards as an institution, in its teaching and research activities, internationalisation and relevance through close interactions with industry.

As we prepare for re-accreditation, I encourage all staff, students and interested parties to take advantage of the opportunities provided to give input into the process as the significant Self-Assessment exercise gets underway.

Opportunity will be given for students from all campuses to provide their feedback on areas of focus in the EQUIS accreditation process. As the first stage of the process, open Q&A sessions at Caulfield and Clayton campuses will be held on the dates below.

**Tuesday 24 August - Caulfield**
N1.08
1-2pm

**Wednesday 25 August - Clayton**
H7
2-3pm

A group of student representatives from faculty committees will meet with members of the EQUIS Re-accreditation Working Group on 16 August to get the student self-assessment review underway.

Further updates regarding the EQUIS re-accreditation process and the key areas of focus will be provided shortly.
