The BEW3100 Work Placement and BEW3101 Business Internship Units within the Faculty of Business and Economics are available for 3rd Year Berwick and Peninsula students.

The aim of the unit is to provide students in their 3rd (or final) year of their degree first-hand experience integrating theory with practice by working in the kind of business / industry in which they might expect to be employed on graduation. Most give you the chance to work on a particular project or complete a specific set of tasks.

You will be given the opportunity to experience life in the workforce, apply the theoretical knowledge you have gained whilst at University and "try out" a particular business or industry sector to see if it is right for you. It's also a great opportunity to demonstrate to a prospective employer what you know and are able to do.
